Study MBBS in Nepal

The MBBS program in Nepal typically follows a structured curriculum, and I've simplified the information you provided for easier understanding:

Academics of Institute of Medicine Kathmandu

- Duration: Four and a half years, followed by a 1-year compulsory residential rotating internship.
- Language of Instruction: English

Preclinical Curriculum (Semesters 1-4)

- First and second years include subjects like Anatomy, Microbiology, Pathology, Pharmacology, and Physiology.
- These subjects are integrated and taught alongside Community Medicine and Introduction to Clinical Medicine.
- Medical Informatics is integrated to provide computer expertise relevant to medical education.
- University examinations are held at the end of the first and second years.
- Students must complete all preclinical subjects within specified timeframes.

Clinical Sciences (Semesters 5-9)

- Clinical subjects include Forensic Medicine, Community Medicine, Ophthalmology, Medicine & Allied Subjects, Psychiatry, Dermatology, Radiology, Emergency Medicine, Obstetrics & Gynecology, Pediatrics, and other specialties.
- Third-year university examinations are held for Forensic Medicine, Community Medicine, and Ophthalmology.
- A student cannot progress to the ninth semester without passing these subjects.
- Ninth semester includes final university examinations in Medicine, Surgery, Obstetrics, Gynecology, and Pediatrics.

Evaluation

- Continuous evaluation is conducted through fortnightly tests, semester exams, end-posting evaluations, seminars, and problem-based learning sessions.
- The continuous evaluation system contributes to excellent results in university examinations.

Teaching Methodology

- Preclinical teaching includes didactic classroom lectures, practical sessions, problem-based learning (PBL) sessions, and community/hospital visits.
- Seminars and PBLs are conducted every fortnight to provide clinical orientation.
- Clinical teaching involves practical training in hospitals, community visits, symposia, seminars, clinical meetings, faculty talks, and guest lectures.
- An emphasis is placed on clinical practical training.
